About Your Diet

Low Residue/ Low Fiber:

This diet is used for those with gastrointestinal (stomach) problems. It provides foods that are easy to digest, soft in texture, low in fiber, mildly seasoned and easy to chew. High fiber foods, nuts and seeds are not included.

Soft Diet::

This diet can also be useful after surgery or for those with some chewing and/or gastrointestinal (stomach) problems. This diet is moderately low in fat and avoids foods high in fiber. Highly seasoned foods are also not included.

Your 100% satisfaction is our number one goal. If, for any reason, our meal service does not meet your expectations, please call the Dietary Manager at extension 3206 and let us know how we can better serve you, our guest.

When deciding what to have for your meal, please make one entree selection from the Lunch & Dinner menu selections for the day.
